

A. A Question of Control

Eternal security is ultimately a question of who has control over the believer's salvation and destiny. There are four possibilities:

God has control and never changes His mind.	God has control and may change His mind.	Man has control and may change his mind.	Man has control and never changes his mind.
Because He's sovereign.	Based on sin, not caprice.	By sinning, or rejecting truth.	By the power of the Holy Spirit.
